journal of **dairy research**

Contents Volume 79

No. 1 (February 2012)

Mineral partitioning in milk and milk permeates at high temperature **DD Kaombe, Y Du and MJ Lewis** 1

Optimizing the fluorometric β-glucuronidase assay in ruminant milk for a more precise determination of mastitis **T Larsen and K Aulrich** 7

Intraruminal administration of *Megasphaera elsdenii* modulated rumen fermentation profile in mid-lacation dairy cows **Q Zebeli, SJ Terrill, A Mazzolari, SM Dunn, WZ Yang and BN Ametaj** 16

Cascade cell lyses and DNA extraction for identification of genes and microorganisms in kefir grains **M Kowalczyk, P Kolakowski, JM Radziwill-Bienkowska, A Szmytkowska and J Bardowski** 26

Proliferative effect of whey from cows' milk obtained at two different stages of pregnancy measured in MCF-7 cells **TS Nielsen, C Andersen, K Sejrsen and S Purup** 33

Characterization of milk fatty acids based on genetic and herd parameters **JML Heck, HJF van Valenberg, H Bovenhuis, J Dijkstra and TCM van Hooijdonk** 39

Association of milk protein genes with fertilization rate and early embryonic development in Holstein dairy cattle **F Peñagaricano and H Khatib** 47

Genomic selection in relation to bovine milk composition and processability **M Glantz, HL Månsson, M Paulsson and H Stålhammar** 53

Genetic parameters of total milk yield and factors describing the shape of lactation curve in dairy buffaloes **RR Aspilcueta-Borquis, F Baldi, FRA Neto, LG Albuquerque, M Muñoz-Berrocal and H Tonhati** 60

Polymorphisms in genes in the SREBP1 signalling pathway and SCD are associated with milk fatty acid composition in Holstein cattle **G Rincon, A Islas-Trejo, AR Castillo, DE Bauman, BJ German and JF Medrano** 66

Modified water solubility of milk protein concentrate powders through the application of static high pressure treatment **P Udabage, A Puvanenthiran, JA Yoo, C Versteeg and MA Augustin** 76

Effects of intramammary inoculation of *Lactobacillus perolens* CRL1724 in lactating cows' udders **ID Frola, MS Pellegrino, MC Espeche, JA Giraudo, MEF Nader-Macias and CI Bogni** 84

Influence of gum tragacanth on the physicochemical and rheological properties of kashk **SG Shiroodi, MA Mohammadifar, EG Gorji, H Ezzatpanah and N Zohouri** 93

Nature and distribution of the volatile components in the different regions of an artisanal ripened sheep cheese **MD Guillén and B Abascal** 102

Effect of polymorphisms in the *leptin, leptin* receptor and *acyl-CoA:diacylglycerol acyltransferase 1 (DGAT1)* genes and genetic polymorphism of milk proteins on bovine milk composition **M Glantz, HL Månsson, H Stålhammar and M Paulsson** 110

Probiotic potential of *Lactobacillus* spp. isolated from Brazilian regional ovine cheese **SMM Meira, VE Helfer, RV Velho, FC Lopes and A Brandelli** 119

No. 2 (May 2012)

Coagulase-negative staphylococci from non-mastitic bovine mammary gland: characterization of *Staphylococcus chromogenes* and *Staphylococcus haemolyticus* by antibiotic susceptibility testing and pulsed-field gel electrophoresis **M Pate, I Zdovc, J Avberšek, M Ocepek, A Pengov and O Podpečan** 129

Factors associated with body temperature of healthy Holstein dairy cows during the first 10 days in milk **V Suthar, O Burfeind, S Bonk, R Voigtsberger, C Keane and W Heuwieser** 135

Proliferative effect of whey from cows' milk varying in phyto-oestrogens in human breast and prostate cancer cells **TS Nielsen, A Höjer, A-M Gustavsson, J Hansen-Møller and S Purup** 143

An association analysis between OXT genotype and milk yield and flow in Italian Mediterranean river buffalo **A Pauciullo, G Cosenza, R Steri, A Coletta, L Jemma, M Feligini, D Di Berardino, NPP Macciotta and L Ramunno** 150

Suppression of ovarian secretions before puberty strongly affects mammogenesis in the goat **L Yart, L Finot, P-G Marnet and F Dessauge** 157

Ultra-high pressure homogenisation of milk: technological aspects of cheese-making and microbial shelf life of a starter-free fresh cheese **A Zamora, V Ferragut, JM Quevedo, B Guamis and A-J Trujillo** 168

Proteomic study of proteolysis during ripening of Cheddar cheese made from milk over a lactation cycle **K Hinz, PM O'Connor, B O'Brien, T Huppertz, RP Ross and AL Kelly** 176

Comparison of the principal proteins in bovine, caprine, buffalo, equine and camel milk **K Hinz, PM O'Connor, T Huppertz, RP Ross and AL Kelly** 185

The effect of long term under- and over-feeding of sheep on milk and plasma fatty acid profiles and on insulin and leptin concentrations **E Tsiplakou, S Chadio and G Zervas** 192

Diversity in growth and protein degradation by dairy relevant lactic acid bacteria species in reconstituted whey **M Pescuma, EM Hébert, E Bru, G Font de Valdez and F Mozzi** 201

Calorimetric and Spectroscopic investigations of β-lactoglobulin upon interaction with copper ion **A Divsalar, SE Damavandi, AA Saboury, A Seyedarabi and AA Moosavi-Movahedi** 209

Milking parlour size, pre-milking routine and stage of lactation affect efficiency of milking in single-operator herringbone parlours **B O'Brien, J Jago, JP Edwards, N Lopez-Villalobos and F McCoy** 216

Size exclusion and reversed-phase high-performance liquid chromatography/UV for routine control of thermal processing of cows' and donkey milk major proteins **C Pinho, ZE Martins, C Petisca, AM Figurska, O Pinho and IMPLVO Ferreira** 224

Thyroid hormones in milk and blood of lactating donkeys as affected by stage of lactation and dietary supplementation with trace elements **L Todini, E Salimei, A Malfatti, S Ferraro and F Fantuz** 232

Effects of citrate and NaCl on size, morphology, crystallinity and microstructure of calcium phosphates obtained from aqueous solutions at acidic or near-neutral pH **O Mekmene, T Rouillon, S Quillard, P Pilet, J-M Bouler, S Pezennec and F Gaucheron** 238

Study of *Staphylococcus aureus* collected at slaughter from dairy cows with chronic mastitis **R Piccinini, R Tassi, V Daprà, R Pilla, J Fenner, B Carter and MF Anjum** 249

No. 3 (August 2012)

Survival and metabolic activity of *lux*-marked *Escherichia coli* O157:H7 in different types of milk **NA Alhefi, RA Lahmer, DL Jones and AP Williams** 257

Kefir grains as a starter for whey fermentation at different temperatures: chemical and microbiological characterisation **A Londero, MF Hamet, GL De Antoni, GL Garrote and AG Abraham** 262

Genetic parameters for test-day yield of milk, fat and protein in buffaloes estimated by random regression models **RR Aspilcueta-Borquis, FRA Neto, F Baldi, DJA Santos, LG Albuquerque and H Tonhati** 272

Effect of dairy powder rehydration state on gel formation during yogurt process **MC Karam, C Gaiani, R Barbar, C Hosri and J Scher** 280

Evidence-based medicine: quality and comparability of clinical trials investigating the efficacy of prostaglandin $F_{2\alpha}$ for the treatment of bovine endometritis **P Haimerl, S Arlt and W Heuwieser** 287

Protein degradation in bovine milk caused by *Streptococcus agalactiae* **M Åkerstedt, E Wredle, V Lam and M Johansson** 297

Risk factors for intramammary infections and subclinical mastitis in post-partum dairy heifers **V Krömker, F Pfannenschmidt, K Helmke, R Andersson and N Grabowski** 304

Genes of the transforming growth factor-beta signalling pathway are associated with pre-implantation embryonic development in cattle **G Li, K Khateeb, E Schaeffer, B Zhang and H Khatib** 310

Identification of *Clostridium beijerinckii, Cl. butyricum, Cl. sporogenes, Cl. tyrobutyricum* isolated from silage, raw milk and hard cheese by a multiplex PCR assay **P Cremonesi, L Vanoni, T Silvetti, S Morandi and M Brasca** 318

Herd-level and territorial-level factors influencing average herd somatic cell count in France in 2005 and 2006 **D Raboisson, M Dervillé, N Herman, E Cahuzac, P Sans and G Allaire** 324

Innate immune responses and health of individually reared Holstein calves after placement into transition-pens 23 days after weaning **LE Hulbert and MA Ballou** 333

Pathogen-group specific association between *CXCR1* polymorphisms and subclinical mastitis in dairy heifers **J Verbeke, S Piepers, L Peelman, M Van Poucke and S De Vliegher** 341

Influence of dry period length on reproductive performance and productivity of Lacaune dairy sheep under an intensive management system **F Hernandez, L Elvira, J-V Gonzalez-Martìn and S Astiz** 352

Ultrasonication and the quality of human milk: variation of power and time of exposure **L Christen, CT Lai and PE Hartmann** 361

Additive and dominance effects of the α_{s1}–casein locus on milk yield and composition traits in dairy goats **F Vásquez, HH Montaldo, JA Torres-Vázquez, RA Alonso, A Gayosso, M Valencia-Posadas and H Castillo-Juárez** 367

Effect of mid-line or low-line milking systems on milking characteristics in goats **A Manzur, J-R Dìaz, A Mehdid, N Fernández and C Peris** 375

No. 4 (November 2012)

Adaptation to benzalkonium chloride and ciprofloxacin affects biofilm formation potential, efflux pump and haemolysin activity of *Escherichia coli* of dairy origin **A Pagedar, J Singh and VK Batish** 383

Influence of the different sodium chloride concentrations on microbiological and physico-chemical characteristics of mozzarella cheese **M Faccia, M Mastromatteo, A Conte and MA Del Nobile** 390

An innovative pre-ripening drying method to improve the quality of pasta filata cheeses **S Niro, A Fratianni, R Mignogna, P Tremonte, E Sorrentino and G Panfili** 397

Fate of enterotoxigenic *Staphylococcus aureus* and staphylococcal enterotoxins in Feta and Galotyri cheeses **A Pexara, N Solomakos, D Sergelidis and A Govaris** 405

Susceptibility of the individual caseins in reconstituted skim milk to cross-linking by transglutaminase: influence of temperature, pH and mineral equilibria **K Hinz, T Huppertz and AL Kelly** 414

Erratum: Susceptibility of the individual caseins in reconstituted skim milk to cross-linking by transglutaminase: influence of temperature, pH and mineral equilibria 422

Allelic variations in coding regions of the vitamin D receptor gene in dairy cows and potential susceptibility to periparturient hypocalcaemia **C Deiner, M Reiche, D Lassner, D Grienitz, S Twardziok, A Moesch, P Wenning and H Martens** 423

A single nucleotide polymorphism in the promoter region of river buffalo stearoyl CoA desaturase gene (*SCD*) is associated with milk yield **A Pauciullo, G Cosenza, R Steri, A Coletta, A La Battaglia, D Di Berardino, NPP Macciotta and L Ramunno** 429

A critical evaluation of diagnostic methods used to identify dairy cows with acute post-partum metritis in the current literature **I Sannmann, S Arlt and W Heuwieser** 436

Herd-level determinants of bovine leukaemia virus prevalence in dairy farms **RJ Erskine, PC Bartlett, TM Byrem, CL Render, C Febvay and JT Houseman** 445

Comparative proteomic analysis of casein and whey as prepared by chymosin-induced separation, isoelectric precipitation or ultracentrifugation **HB Jensen, NA Poulsen, HS Møller, A Stensballe and LB Larsen** 451

High shear treatment of concentrates and drying conditions influence the solubility of milk protein concentrate powders **MA Augustin, P Sanguansri, R Williams and H Andrews** 459

Fatty acid profile of the milk of cows reared in the mountain region of Poland **J Rutkowska, A Adamska and M Bialek** 469

The effect of dry cow antibiotic with and without an internal teat sealant on udder health during the first 100 d of lactation: a field study with matched pairs **K Mütze, W Wolter, K Failing, B Kloppert, H Bernhardt and M Zschöck** 477

Interannual and geographical reproducibility of the nutritional quality of milk fat from commercial grazing flocks **M Virto, M Bustamante, JC Ruiz de Gordoa, G Amores, PN Fernández-Caballero, N Mandaluniz, J Arranz, AI Nájera, M Albisu, FJ Pérez-Elortondo, LJR Barron and M de Renobales** 485

Direct estimation of sialic acid in milk and milk products by fluorimetry and its application in detection of sweet whey adulteration in milk **Neelima, PS Rao, R Sharma and YS Rajput** 495
